Elijah Jones
Judicial Council President

Voter Turnout Incentives For Alumni Hall &
The Class of 2028

In an effort to increase voter turnout, the Judicial Council is introducing voter turnout incentives for the Residence Hall and Class with the highest voter turnout. Concerning Residence Halls, Alumni Hall was the Residence Hall with the highest turnout at 87%. As a result, their residents will receive a party at the expense of the Judicial Council.

Concurrently, the Class of 2028 had a 45% voter turnout in their election, which is the highest of any class. As a result, the Judicial Council will give out $50 gift cards to 90 randomly chosen members of the Class of 2028.

This is something that I will do again next year in my second term as Judicial Council President, and I hope it is something that future Judicial Council Presidents continue to do to promote higher voter turnout!

Respectfully,

Elijah Jones
Judicial Council President
